

# SINGLE CUSHION DROP THULI "SPEEDER BOARD"

---

Dr. Thuli originally designed this "Speeder Board" for student technique development. It is available in numerous chiropractic college bookstores, often with a raised "bump" to simulate a high transverse process. (This bump can be removed at a later time if desired). Equally as popular with a "flat" cushion for extremity adjusting. Not intended for cervical or pelvic adjusting.

**\$ 60 (Flat cushion or with raised "bump")**
