

What our customers are saying . . .

"I just received my new portable Thuli table. In opening up the table and discovering all the features that you have so cleverly installed, I have been really impressed. You folks are wizards! You have designed a structurally sound table that is so beautiful it complements our image wherever we take it. Thanks for your excellent craftsmanship!"

Mark Sloan, D.C.

"The table was terrific. It accommodated every athlete regardless of size or shape. It withstood many jars and jolts as everyone, including therapists, trainers, MDs and nurses used this table. We were inundated with work. Thanks for the excellent craftsmanship."

Lawrence Stern, D.C.

"One colleague from America had a Tour table which he showed me and ever since that day I haven't been able to forget about it. It was a beautiful piece of art. Love at first sight!"

Anders Akerman, D.C.
Finland

"Your tables are doing fantastic, they are the heart of my office. I'm seeing close to 40 patients per day now and growing fast. I love all their drop pieces as they make things go much easier. Nothing has broken or deteriorated, I use all the drops continuously and I think they are marvelous. I don't think I could work with any other equipment - you have spoiled me."

Anthony Silva, D.C.
Spain

"I recently attended the Goodwill Games in Moscow as part of the Life Sports Chiropractic Team. Thuli portable tables were the only adjusting tables available to us and, actually, all we needed. I and the other chiropractors with our group were extremely impressed with the versatility, strength and quality of Thuli tables. I have never seen a portable table that fits all of a chiropractor's needs as does the Thuli tables."

Robert Braile, D.C.

"I never cease to be impressed by your company. I purchased your Thuli Tour table several years ago. For a long time it was my main (only) table. It has served me well. I recently purchased your pull cart. It works great. I use my Thuli for seminars, special events and CE classes now. In the future I will probably do a few house calls with my Thuli. The cart works great and will enhance by ability to take chiropractic everywhere I go. Keep on doing what you do!"

George Tomas, D.C.

"....my Speeder Boards look and work as good as new after thousands and thousands and thousands of uses!"

Gary Hartwell, D.C.
Canada

"We wanted to write to you praising the construction and workmanship of your portable adjusting tables. Following a house call, our table fell out of the back of our van as we drove away from a busy intersection. To add injury to insult, the truck directly behind us drove over the table with both the front and then back tires. Needless to say we guessed the table had to be beyond repair. Upon arriving home and fearing the worst, we slowly began to open our table and set it up. To our total amazement and pleasure the ONLY damage was torn upholstery and two broken tension knobs!

As the old saying goes "You get what you pay for!" We sure did and we would do it again and encourage anyone else to as well. Thuli Tables are simply the best, period!"

Drs. Mike and Melissa Mathes

As Peace Corp volunteers in Brazil, we were very impressed with the amount of health care we were able to provide with just our hands and a Thuli portable adjusting table, our only tool. We worked in several clinics and were lugging the table around in cars, buses, taxis, etc." Not only was the Thuli table capable of all of the functions of our hydraulic tables, but it was also extremely sturdy, durable and portable!

Brent McNabb, D.C.
Ross Royster, D.C.

"Many of my classmates and I visit your website, bring up the large image of your Tour portable and just drool. The table so elegantly represents our aesthetic, commitment and love of our craft within chiropractic...."

Shawn Hoga
Chiropractic Student

"I believe that your company is one that displays great respect and care for its customers. Not often does one see such dedication and concern for customers as you have displayed. I would also like to commend your company on its dedication to quality products. Please accept my sincere thanks and appreciation."

Brian Seebacher, D.C.

"I purchased a Thuli Tour portable table 12 years ago and have been thrilled from the first day I used it. Extremely sturdy, reliable and maintenance free!! Bravo!!"

Robert Del Santro, D.C.
